Zurich, March 2008

The Institute of Geodesy and Photogrammetry invites qualified persons to apply for the full-time position of

**System Administrator/Engineer**  
Photogrammetry and Remote Sensing Group

**Main Tasks**

Maintenance and support of the local computer systems (hard- and software) and the specialized photogrammetry and remote sensing systems. Advising and supporting assistants, PhD candidates, undergraduate and graduate students in all computer-related matters. Design, realization and documentation of specialized software. Evaluation and implementation of third party software.

**Requirements**

Bachelor, Master or Dipl. Ing. in Geomatics or neighbouring natural and engineering sciences from University or University of Applied Sciences. Knowledge and experience with computers, computer programming and geospatial software is mandatory. Willingness to work on a cooperative basis in a young, dynamic and international team. Interest in research, development and teaching on academic level.

**We offer**

A permanent position. Inspiring, dynamic and challenging international and interdisciplinary environment. Interesting research and development projects.

Contacts with motivated students.

Salary commensurate with experience and age.

Possibility to register for the PhD program.

Start of work: 1 May 2008 or later

**Information**

Additional information can be obtained from Dr. Emmanuel Baltsavias (phone +41 (0)44 633 3042, [manos@geod.baug.ethz.ch](mailto:manos@geod.baug.ethz.ch)).

You are also invited to visit our homepage [www.photogrammetry.ethz.ch](http://www.photogrammetry.ethz.ch), where also information on research projects is given.

Interested candidates please send the letter of application and a detailed CV to
